The Chinese religious leader has been visiting in this part of the United States recently, and was honor guest at the celebration of the St. Joseph Academy centennial last week.

The portrait was commissioned by the Seminary. And in order to have it done in time for this weekend's events, Miss Smith found it necessary to "retire" to the country where she could work day and night undisturbed.

J. L. LYLE

A city grows and prospers by reason of public spirited men and women who take an active interest in its development. And Gulfport has its share of these progressive and civic-minded people, and one who is deserving of recognition is friendly, likable Mr. J. L. Lyle of Lyle's Variety Store.

The business ability coupled

with a thorough knowledge of modern factors in maintaining the variety store business in a prominent business position of the business life of the city.

We congratulate J. L. Lyle on his past successes and predict that the future will bring still greater successes.

F. F. MANDAL AND

J. A. COOPER

Messrs. F. F. Mandal and J. A. Cooper of Mandal's Roofing and Sheet Metal Works are two of those progressive types of citizens upon whom the community depends a great deal for leadership in business and other matters. They have, in the past, and no doubt will continue in the future to give more of their share of time and

energy for the welfare of others than themselves. They are the kind of people who make friends. And friendships once formed by them are never broken by an unfriendly act on their part.

However, they proceed in a calm, unostentatious manner and accomplish their objective with a quiet dignity.

We do not hesitate to recommend F. F. Mandal and J. A. Cooper to our friends as good examples of the more progressive type of business people who are aiding in the growth and development of Gulfport, and the surrounding country.

HAROLD W. FINKLE

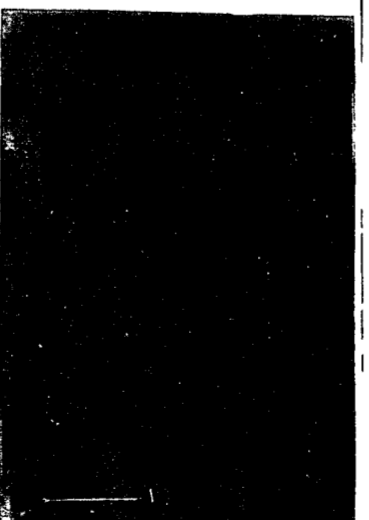

Mr. Harold W. Finkle of The World Ins. Co. at 3101 25th Avenue in Gulfport has proved his progressiveness by constantly adding to and increasing the service which his business has rendered to the community.

The large volume of business handled by this Insurance Co., proves that service to him is not just a word but something to be extended to the people to the extent of his ability.

And in addition to his close attention to business affairs, "Harold" Finkle was never a man to dodge his civic responsibilities. He fully appreciates the value of good will and has more than his share of that intangible commodity because of the manner in which he meets both his business and civic obligations.

Harold W. Finkle has many friends in Gulfport and it is a great pleasure to bring him before our readers in this review of progressive business men. We sincerely wish for him as much success in the future as he already has accomplished in the past.

GEORGE KENNON

Because this is a period of growth and expansion for Gulfport, those progressive business men who had the foresight and ability to lay their plans so as to be able to take advantage of these conditions, are entitled to more than ordinary acclaim. We are glad therefore to pay tribute to Mr. George Kennon of the Kennon Insurance & Real Estate Agency in Gulfport.

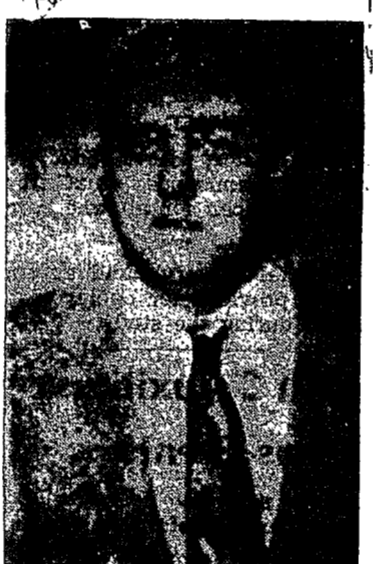

Mr. Kennon's persistent optimism and steadfast belief in continued future and prosperity of the people of Gulfport and vicinity are characteristics which are deserving of our highest praise.

George Kennon has always shown a willingness to do his

part in one form or another to projects promoted for the welfare of his city. We believe that a businessman of this kind is entitled to our sincere praise, both because of his high quality service and his willingness to contribute to the public good.

Long Beach, Miss., and this area are indebted to many citizens who have been active in the rapid progress of the city and who have assisted in making it one of the up-and-coming cities in this area. In telling you about some of the men it is our duty to include Mr. C. Perry Ellis of The Long Beach Drug Co., in Long Beach, a store where pharmacy is a profession and never a sideline.

He is entitled to a great deal of credit for his success in both business and civic activities.

Mr. Ellis deserves a great deal of praise and these few comments are but a just recognition for the many fine things he has done in behalf of the general welfare of Gulfport and the Long Beach area.

The honest and successful conduct of his business is but a reflection of his character. We sincerely hope that C. Perry Ellis will continue to serve Gulfport and Long Beach for many more years.

G. M. BROOKS

In paying tribute to some of the more progressive business and professional men of Gulfport we would be remiss in our duty should we fail to include G. M. Brooks of the Stribling Bros. Mach. Co.

Mr. Brooks is a man who has contributed generously to the welfare of Gulfport and the community for many miles around. His civic spirit and energy is evident by the many services he has performed and continues to perform in the interest of the people as a whole. No worth while enterprise which promises to benefit the community as a whole escapes his attention.

G. M. Brooks, is a man of wide acquaintance whose many friends admire and respect in him those virtues which inspire confidence and promote good feeling. His upright business methods are a credit to his inherent sense of fair play. A community is fortunate to number among its citizens a man of his

Ten Schools Competing In Pass Tour

Ten schools are represented in the annual Invitational Basketball Tournament sponsored by Pass Christian High this week.

Bay High, Dedeaux, Ocean Springs, Long Beach, St. Joseph of Pass Christian, and Pass High will have both boys and girls teams going in the tourney.

St. Stanislaus, Notre Dame and Our Lady of Victory from Pascagoula have entered their boys and St. Joseph Academy and Sacred Heart of Biloxi are aiming for the girls' trophy.

The tournament opened last night with Pass High boys playing O. L. V., Bay High girls meeting Sacred Heart and Long Beach girls facing St. Joseph.

Tonight there will be two games in the boys' bracket and one on the girls.

The Bay High Tigers play Dedeaux, in which should prove to be one of the better games of the tourney, and Long Beach and St. Joseph vie for a semi-final berth in the first game of the day.

The girls teams that play are Dedeaux and Pass High.

Friday night St. Stanislaus and Ocean Springs meet the winner of the Bay High-Dedeaux game in the semi-finals Saturday afternoon. Notre Dame plays the winner of the Pass High-O. L. V. game.

St. Joseph Academy and Ocean Springs furnish the only action in the girls' division Friday.

Saturday afternoon starting at noon, all four of the semi-final games will be held.

Saturday night the two final games take place.

Several coaches in this territory have voiced the opinion that Pass High boys will wind up meeting the Bay High Tigers in the finals of the boys' bracket and Pass High girls will meet Bay High in the championship game in that section.

The two teams have met before in regular season play, with Bay High winning both games.

The coaches contend that the dark horses in the tourney will be Ocean Springs girls and Dedeaux boys.

Pass High won both ends of its tournament last year.

Pass High Hands Stanislaus 41 Point Defeat

With near perfect shooting from the floor Pass Christian High handed St. Stanislaus its worst basketball setback in many years.

The Pirates from the Pass drew off to an early lead and increased it in each quarter.

The game ended with the scoreboard showing a 41 point difference. Pass High won 73-32.

Lerow Wescovich, a tall and lanky center missed two shots the entire night. He was the spark of the Pass attack. Wescovich hit for 36 points, playing just a little more than three periods.

Stanislaus players were hitting the backboards but couldn't sink but 12 percent of its shots.

Harry Kershaw, a substitute center, who filled in for the injured James Schmexnyder, led Stanislaus' scoring with nine points. He was followed by Louis Ladner, one of the usual high scorers for the Rockchaws, who tallied seven points.

Pass Christian out broke and outplayed Stanislaus throughout the game. Many times Pass High had one and two players down the court all by themselves.

Pass had 15 points before Stanislaus scored its first with a free throw.

Coach Herb Adams of Stanislaus said, "The boys were off. If they had been hitting a little better I don't know if we could have beaten them, but it would have been a closer game."

COASTING
By ANNE ORLEANS
If you see a little pink cloud floating around it might be some one you know. Mrs. Tony Spence is practically floating around these days because the doctor finally took the cast off that broken arm but she is still watching her step because of that sprained ankle. One of her friends decided that as it is not safe for her to travel by auto or walk on waxed floors, perhaps she had better buy a brand new pair of wings or rent a little pink cloud so if you see one just call, "Hi, Lou!"

Farmers Loans

Easier, Better States

F. Burrill, the Farmer's Administration agent for Hancock County, this week is for the farmers of this county the latest information on the new building improvement plan for service loans available to agriculturists here.

The building improvement plan made available only recently, is for the farmer who has an adequate farm but needs to construct or repair essential buildings. Loans can be made to build or remodel farm dwellings, barns, milk houses, or outbuildings needed to carry out sound farm management practices.

The agency supplements rather than competes with private or cooperative credit. No farm ownership loan of any type or loans for soil conservation or farm operations can be made to farmers who are able to get the necessary credit from other lenders at reasonable rates and terms.

Other types of farm ownership loans include: (1) farm purchase, for renters, sharecroppers or farm laborers - family veteran or other young families—who are ready to assume farm ownership; (2) farm development loans for farmers who need, for example, such land development as pasture improvement, gully filling, recognition of fields and fencing, and some repairs and remodeling of farm buildings; and (3) farm enlargement loans for those who need more acres to make their farms efficient.

Farm ownership loans are amortized over a 40-year period except building improvement loans which may be for 10, 15, 20, 25 or 40 years. Farm ownership borrowers may make repayments at any time, and interest is charged on the outstanding principal balances. Borrowers are required to reamortize their loans as soon as they have accumulated enough equity to qualify for private or cooperative credit.

Farm ownership loans are made primarily from funds advanced by private lenders and are fully insured by the Farmers Home Administration. Interest rates are made for not more than 90 percent of the fair and reasonable value of the farm. Investments by private lenders in this program are increasing.

Direct farm ownership loans from appropriated funds are made only when eligible farmers need to borrow more than

90 percent of the value of the farm. Most of the applicants in this situation are young veterans wanting to become established as farmer owners.

As a means of speeding up services to farm families and cutting costs at the same time, appraisers who are also qualified as county supervisors are located in county offices throughout the State. They are more accessible for appraisal work than were the more limited number who formerly were stationed in the State Office.

Elimination of a triple agreement that required signatures of the insured lender, the borrower, and a representative of the Farmers Home Administration has helped speed of loans. Discontinuing other forms and files found unnecessary has also helped.

Farmers apply for loans at the county Farmers Home Administration office, located in Agricultural Center, Necaise Avenue, Bay St. Louis. Applications are referred to the agency's local county committee. This 3-member committee decides on the applicant's eligibility for the loan. Veterans with farming experience have preference. In determining eligibility the committee considers character, ability, and whether the applicant and his family are likely to succeed on the farm they have in mind or with the improvements they intend to undertake.

TREE PLANTING CAN BE EASY

Planting is done during the very early spring. Cold, damp days are the best for setting out trees. They may be planted with dibble, mattock or tree planter, and no special preparation of ground is necessary before planting.

Spacing recommended is six feet between seedling and six feet between rows. Sometimes the spacing six by eight, is preferred. Either is satisfactory. Following these suggestions, one acre will take about one thousand trees. This is the amount that one man can set out in a day.

Trees should be planted on land now in cultivation but not suited for row crops or pasture, in fields not in use, in open woods, in heavily cut-over woods or in woods that need to be changed to be changed to different kind of trees. Some trees are suited only to certain sections of the state or on certain types of soils. For instance, longleaf and slash pine are best suited for the southern part of the state.

Seedlings should be planted the same day they are received. If this is not possible the roots should be kept well moistened. When it is necessary to keep the trees for several days, unpack seedlings, held in a shallow trench and cover with moist earth.

For protection, make fire lanes around are planted, and if well cared for in about 15 or 20 years the first cash crop should be ready to harvest.

Visits Place She Worked 69 years Ago

Sister Thorsilla who came to St. Joseph's in Bay St. Louis as a young teacher almost 69 years ago, attended the convent's centennial celebration.

Sister Thorsilla not too long ago celebrated her 65th year as a nun, having entered the convent at the age of 14 years. She has received recognition as an outstanding personality in her field of teaching, for her work with the sick and the incarcerated and was awarded a loving cup a few years back for

her work among the prisoners at Angola Prison, La.

In spite of the fact that Sister Thorsilla is nearing her own Centennial she is still very active and nothing pleases her more than to get out and go places and do things.

In recounting a few experiences of the past in her years at St. Joseph's here Sister Thorsilla remarked, "The town hasn't changed very much, it still seems the same as when I first came here."

She is at present at the Convent of St. Joseph in Baton Rouge, La.

Conservation Aid Registration Set Jan. 17 To 31

The initial sign-up period for Hancock County farmers to request the Federal Government to share the cost, if needed, to aid in carrying out conservation practices on their farms during the 1955 program year is from Jan. 17 to Jan. 31.

The basic purpose of the Agricultural Conservation Program is to aid in achieving necessary conservation of our soil and water resources. The future prosperity of this Nation necessitates the land and water resources. Conservation of these resources is urgent and it really pays.

Fitzhugh Lee, Chairman of the Hancock County ASC committee advises that the Agricultural Conservation Program is entirely voluntary, and any farmer who believes he can do the needed conservation job on his farm without the aid of the limited funds available under the program is urged to do so.

If there are farmers in Hancock County who feel that they cannot carry out conservation practices without this aid, they may file their request in the Hancock County ASC office located in the Agricultural Center, Bay St. Louis, between January 17 and Jan. 31.

Historical Group Seeks Members

J. Roland Weston, on the membership committee for the Mississippi Historical Society, this week announced that the society is now having a drive for new members.

The group's aims are to preserve and spread information pertaining to Mississippi's history—and to promote and encourage the study of history.

Since the society was reactivated in 1952, individual memberships have increased from 153 to 476.

According to a statement from the society, opening this drive, the organization's journal has been resigned and has shown a marked improvement. Too, interest has increased in the annual meetings.

"The membership committee firmly believes there are thousands of Mississippians who would gladly become members if they knew of the existence of the society," the statement said.

Those interested in joining may contact Mr. Weston.

The only report worth while is

the hiway bridge the past couple

ends in February.

Sailing will come into its own

should again be plentiful. Bet-
ter get that old light out and
give it a going over.

To beginners of this sport all
that is needed is a light (the old
kerosene or the new gasolene
type) and a spier. Soft crabs
are caught best when the tide
is low, and flounders on a ris-
ing tide. The crabs and flound-
ers are both table delicacies -
ask anyone who knows!

Improvements are still being
made at the Pass Christian Isles
Golf Course. The work of drain-
ing the course is progressing
and with the new ditches just
about completed, the few low
spots are being done away with.
The greens are in perfect con-
dition and the fairways in excel-
lent shape. Joe Phelps the able
president and Alex Cunningham,
pro with members of the club
are to be complimented on a
job well done.

The reported rise for Pearl
River should put the river out
of commission for a short while
for fishing.

Our neighbor from Waveland,
Percival Stern an ardent fisher-
man and boat enthusiast be-
tween extensive traveling, took
time out to do a little fishing. He
went to Bayou Biloxi. He caught
some nice sheephead and red
fish.

Let's be a real sport - give to
the March of Dimes.
